Comments:

I get stuff in the mail which I like.
 Due to present location, unfortunately I cannot attend events and activities.
 Communication has improved very, very significantly over the past two years.
 The new alumni newsletter looks great!
 I love the new format and magazine.

Comments:

I've only been out of school one year.
 I have yet to be interested in any of them.
 Not lately, used to attend picnics.
 I have had to miss most COP alumni events due to illness of conflicts but I am looking forward to planned events in 2007.

Comments:

Maybe later when kids are less demanding of my time.

If you use the College's website, please specify and rate the area(s) of the site you use:

CE - excellent

Future students - excellent

Catalog - excellent

CE - good

Suggestions that would make the website more helpful to you:

Link to alumni names, address, phone number and e-mail. The only thing I have found useful on the web page is e-mail addresses and applications for students.

Favorite memory from your time at the College, including stories and anecdotes about faculty and fellow students.

* Parties at Burns Park.

* "Questions, comments, remarks" - Dr. Charles Born at the end of each lecture.

* I always remember Dr. Jordin taking pictures of us after going to his office to get our A&P grades. Also remember Dr. Easterly with his little official products. In rat lab, I remember Dr. Grosicki being bitten by a mouse. Also remember Dr. Grosicki's history of pharmacy class where he asked us to turn in our notes and they had figures on how many times he would say "ah" during lecture. I remember us going to Pecks across Markham; ok going but dangerous coming back. I remember going to Travelers games and Michael Dismoe got thrown out. I got thrown out of Pecks one night. She said I was loud and boisterous, when she threw me out. That's when I got loud and boisterous. I remember going to races on Friday afternoons or during Dr. Pyne's class.
